Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2816

1. the amendment filed on 6/23/05 has been received and entered in the case.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The amended title is less descriptive than the original title, and therefore applicant has failed to overcome the objection.

4. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 is indefinite for the reason noted in the previous office action, and applicant has failed to respond to the rejection (i.e., amendment or argument). Therefore, the rejection is repeated.

Art Unit: 2816

5. Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Jordan '392.

See paragraph three of the previous office action for the details of this rejection.

6. Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Stuebing et al.

See paragraph four of the previous office action for the details of this rejection.

7. Claim 2 is rejected under 35 U.S.C. 103(a) as being unpatentable over either Jordan '392 or Steubing et al.

See paragraph five of the previous office action for the details of this rejection.

8. Claim 4 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 5 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Art Unit: 2816

9. Applicant's arguments filed on 6/23/05 have been fully considered but they are not persuasive.

The argument that the ramp generator 156 is Jordan '392 "is controlled by slew rate compensator circuit 174 and has nothing to do with amplifiers 158 and 160 and consequently could not meet the...claimed limitations" is without merit. The ramp generator 156 in fact supplies the inputs to amplifiers 158 and 160, and thus to argue that it "has nothing to do with" these amplifiers makes no sense.

The same type of argument made by applicant against Steubing et al similarly makes no sense. It is suggested that applicant carefully reread the outstanding rejections noted above, as well as the applied prior art.

10. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2816

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kenneth B. Wells whose telephone number is (571)272-1757. The examiner can normally be reached on Monday through Friday from 8:30am to 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Timothy P. Callahan, can be reached at (571)272-1740. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
